Evanston, Illinois
March 13, 1954.

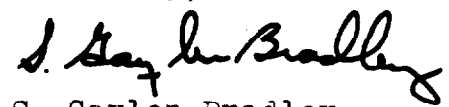

Dear Dr. Lederberg:

I have received notification that I have been awarded a Lilly Postdoctoral Fellowship in the Natural Sciences for the academic year 1954-1955. The Board authorized \$500.00 to be paid to The University of Wisconsin to support the project.

I am now finishing my dissertation, so I should have some spare time soon to commence isolating strains of Actinomycetes. I hope to come to Madison for a day sometime in May, but that is rather indefinite at present.

So, for now, my best wishes to your wife and yourself.

Sincerely,

S. Gaylen Bradley.
